DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-4, drawn to a semiconductor device.

Group II, claims 5-32, drawn to a method of making semiconductor devices.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: While the Group I invention relates to a general structure of a semiconductor device, the Group II invention describes a separate inventive concept. The special technical features of the Group II invention revolve around the complex process and apparatuses for making a semiconductor device including pre-treating the surface of a semiconductor substrate, storing the samples in a CVD reactor, pre-tempering the samples, supplying a doping gas during cooling, and applying a partially monocrystalline emitter layer with the addition of silane and doping gas at a particular temperature range. These processes comprise unique features not present in the Group I invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
